To Whom It May Concern:

It has been my distinct pleasure and our school district's great fortune to have worked with Frank Messineo as our Architect of Record since 1998. During his decade long tenure with our District, Frank has provided solutions for millions of dollars worth of projects ranging from small yet challenging, capital projects, to a \$25 million dollar, District-wide, Referendum Project that provided capital upgrades to the District's four Elementary Schools, the Middle School, and that provided 55,000 square foot of Additions and 72,000 s.f. of renovations to the District High School.

Over the years, Frank has proven to be extremely reliable and responsive; his knowledge of the Educational Process, curricula, and teaching methods only enhance his abilities to create flexible and appropriate Educational Architecture. Frank's personal attention to detail and leadership have provided the District with a level of comfort and a sense that we know we will be "taken care of". Frank's ability to tackle the issues head-on, "to make a phone-call on the spot" or take an impromptu trip out to the site has proven to be one of the keys to his success. The District has been more than satisfied with his responsiveness and personality and is glad to have established a relationship of trust and mutual respect with Frank.

I am pleased to recommend Frank Messineo and Solutions Architecture without reservation and am confident that he will bring success and economic benefit to any project that you may be entertaining. Please feel free to contact me for additional information about Frank.

Very truly yours,

Michael S. Neves
School Business Administrator/Board Secretary
